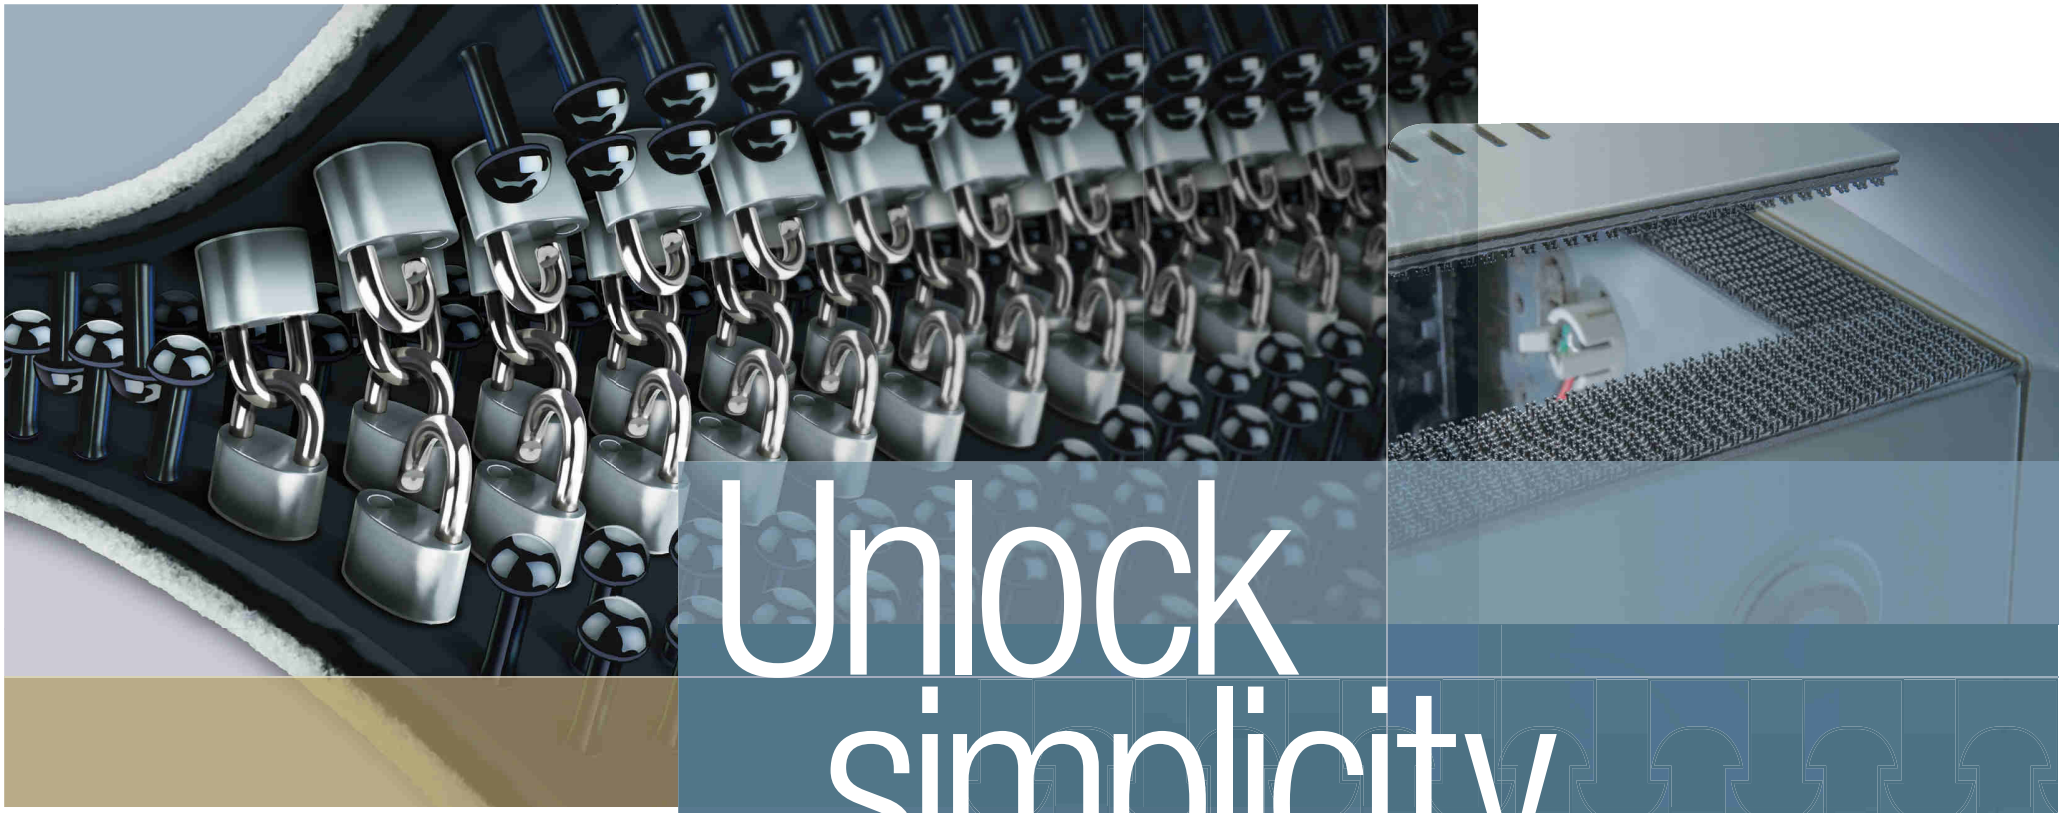
3M Industrial Adhesives and Tapes

3M™ Dual Lock™ Reclosable Fasteners



Unlock simplicity

Hundreds of reattachments in a snap

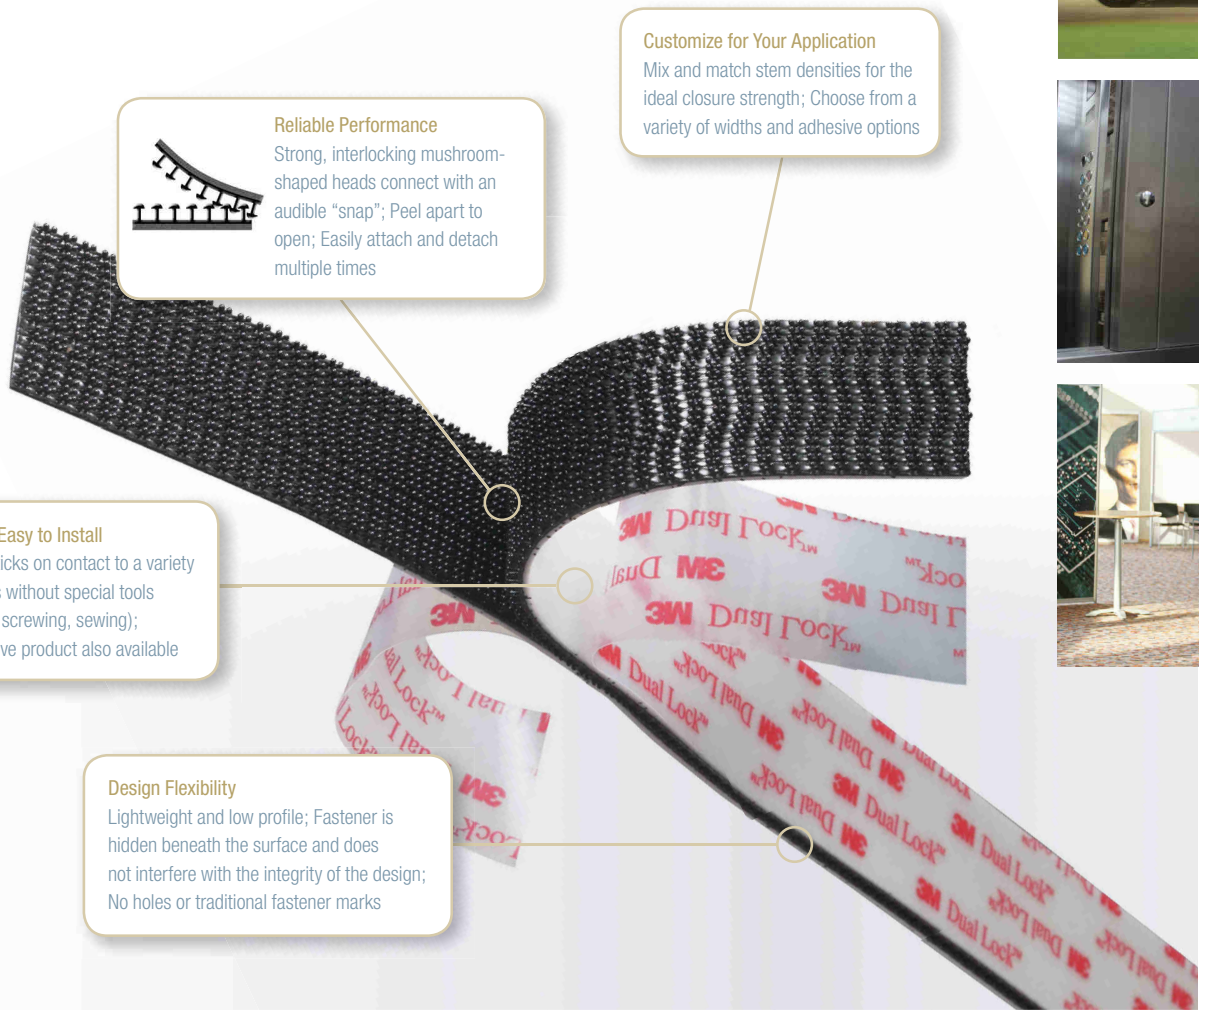
Strong and simple to use

3M™ Dual Lock™ Reclosable Fasteners

Not all design requirements are easily satisfied, but you can simplify your attachments. When you need a strong, reliable, yet removable closure or attachment, 3M™ Dual Lock™ Reclosable Fasteners are the easy alternative to traditional fastening methods such as screws, nuts or bolts.

- Strong, interlocking mushroom-shaped heads close with a snap to assure your design is securely fastened.
- The many adhesive options help to reduce concerns of material damage and deformation, fastener placement, contamination and corrosion, and the challenges of joining dissimilar materials.
- Works behind the scenes as an invisible fastener to create a snug fit and smooth lines for improved aesthetics and sleek appearances.
- Provides the application ease of tape and the durability of a traditional fastener.

5X Stronger than Hook & Loop



Experience the simplicity

- Durable — up to 1,000 openings and closings before losing 50% of original tensile strength
- Helps reduce vibration
- Temperature, moisture and UV resistant
- Strong pressure sensitive adhesive bonds on contact
- Interlocking mushroom-shaped heads have **5X the tensile strength** of hook-and-loop products
- Application and maintenance ease
- Low profile option available — approximately half the thickness of standard fastener

Select the right 3M™ Dual Lock™ Reclosable Fastener for the job

Product	Stem Density (per sq/in)	Adhesive	Color	3M Liner	Engaged Thickness	Temperature Resistance	Substrates					Use	Applications			
Specialty Vehicle							Metals (Al, SS)	Glass	Plastics (Acrylic, PC, ABS)	Powder Coated Paints	Low Surface Energy (PP, PE)	Indoor/ Outdoor	Interior Panels (Walls, doors, headliner, storage)	Accessory Attachment	Curtain Rails	Seats

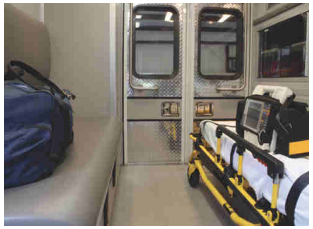
Solve attachment challenges in an instant

There are a thousand behind-the-scenes decisions that contribute to the success of your design. Every little feature — from how you choose to attach the graphics at a trade show or cushioning panels on a bus — matters for long term performance.

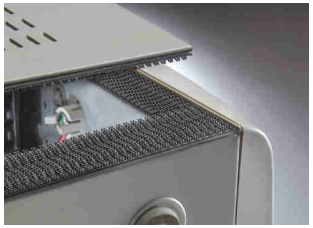
Choosing 3M™ Dual Lock™ Reclosable Fasteners can solve attachment challenges in an instant with the confidence that you've made the best decision for how your project will look when it's unveiled. Plus with the super strong bonds of 3M™ VHB™ Tape and powerful, interlocking mushroom-shaped heads, it also means you've chosen strength and easy to use reliable performance for the long run.

Secure plastic signs to window glass



Attach cushioning panels in an ambulance or bus

Secure vehicle accessories to dashboard



Attach access panels to industrial, electronic, and electrical equipment

Attach elevator control panel to interior wall

Fasten ceiling panels to interior for future access
